SUMMARY

Front-End Developer with hands-on experience building responsive and high-performing web applications using React.js, JavaScript, HTML, CSS, and Redux. Improved page load times by up to 40% through efficient state management and code optimization. Collaborated with back-end teams to integrate RESTful APIs, reducing API call latency by 20% on average. Skilled in debugging and refactoring legacy code to enhance maintainability and scalability. Focused on delivering clean, reusable components and seamless user experiences across devices.

EDUCATION

Bachelor of Computer Application | Teerthankar Mahaveer University, Moradabad CGPA: 7.1 | (Sep 22 - June 25)
Intermediate (10+2) | Dr. Z.H.I inter college | Nidhauri Kalan, Etah (U.P)

SKILLS

Languages: HTML, CSS, JavaScript, Python, Java.

Technologies: Tailwind CSS, React.js, Node.js, Express.js, Redux, Github, SASS/SCSS.

Databases: MySQL, MongoDB.

Tools: Visual Studio Code, GitHub, Docker, Postman.

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability.

Methodologies: MVC Architecture, Agile Development.

PROJECT

Car Rental Platform

Aug 2025- Oct 2025

- Developed a full-stack web application using React, Node.js, Express, and MongoDB, implementing secure authentication, dynamic routing, and responsive UI for seamless user experience.
- Designed and integrated RESTful APIs to manage real-time data operations, improving system efficiency and reducing API response time through optimized back-end logic.
- Implemented scalable architecture and modular components, ensuring maintainability, performance optimization, and smooth deployment using Git and modern development practices.

Blogging Website

July 2024 - Sept 2024

- Created the blogging website named Blogging Beyond Boundaries, Which website supports user authentication and content creation for engaging discussions, that enable users to share their ideas and thoughts effectively.
 - The project was developed using HTML, CSS, and JavaScript for the front-end, and interactive user interface, modern design principles were applied to enhance usability and aesthetics. Advanced frameworks like Bootstrap were utilized for responsive design. Secure login and registration for managing user profiles.
 - It helps users easily share their ideas, discover relevant content, and engage in meaningful conversations.
-

CERTIFICATIONS

- Web Development from Cognifyz Technologies
- Programming in C from IIT Bombay

EXTRACURRICULAR ACTIVITIES

- Error Solving
- Exploring New Technologies
- Playing Badminton
- Reading Books
